

## 2023 Fellowship Opportunity

**Social Enterprise:** Kisangas (Cleanergy Tech Solutions)

**About:** Kisangas' mission is to empower farmers and help them develop sustainable agricultural practices. It provides sustainable organic waste management solutions designed specifically for small and marginalized farmers. The social enterprise delivers affordable clean biogas technologies which convert cattle dung into high-volume methane, providing a clean form of fuel for household use and an excellent biofertilizer.

**Website:** [Kisangas.com](https://kisangas.com)
